

Are you ready?

When a large disaster happens it could take up to two weeks for resources to reach us. You may be on your own! We as a community may be our own first responders! This is why your EP Committee is working to add to our Gleneden Beach cache, and get valuable information to you about preparing for any disaster that may happen.

This month, think about your family being two weeks ready, and start with the basics:

2 weeks worth of food and water for you and your pets

2 weeks of warm clothes

2 weeks of medical supplies

2 weeks of sanitation materials

Start with what you have at home, then add items continually.

Then think of what else you may need - we can help with that! On

Saturday, June 22nd, 10:00-12:00, your Emergency Preparedness Committee is hosting a **Go-Bag Meet Up** at our community hall. *Please Come!*

We will be exhibiting our personal Go-Bags, giving away items to add to your Go-Bag, and offering a ton of information on preparing for the next great disaster.

Assisting us in this will be a line up of knowledgeable professionals:

Samantha Buckley from Lincoln County Emergency Management

Captain Pat Ganz from Depoe Bay Fire and Rescue

Sherry Beard from Depoe Bay CERT

Rick Booth from the Red Cross

By the way, we'll also have doughnuts, coffee and tea!
